CERTIFICATE OF COMPLIANCE

California Proposition 65

Proposition 65, officially known as the [Safe Drinking Water and Toxic Enforcement Act of 1986](#), was enacted as a ballot initiative in November 1986. The proposition protects the state's drinking water sources from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm, and requires businesses to inform Californians about exposures to such chemicals. To view the list of chemicals, please visit <https://oehha.ca.gov/proposition-65/chemicals>.

UPG hereby certifies that our products are fully compliant with Proposition 65.

At UPG, we are deeply committed to providing safe products to our customers and as such, we work closely with our vendors to ensure that the purchase of raw materials meet and exceed Proposition 65 standards. We will stay abreast of and monitor Proposition 65 for any newly listed chemicals or revisions.

Note: *A warning label is only required for our lead-acid battery products with exposed lead terminals.*
